

Garmin EIRE Discoverer Full Coverage

Discover the Republic of Ireland

Explore all of the Republic of Ireland with detailed 50K topographic and road maps. Garmin EIRE Discoverer contains full 1:50K scale Ordnance Survey Ireland map coverage for the entire country. Plus, with NAVTEQ road data and points of interest, you'll get turn-by-turn directions to your destination. EIRE Discoverer's detailed topographic data includes terrain contours, topo elevations, summits, paths, routable roads and geographic points. The premium NAVTEQ road data is the same detailed data included in our leading automotive products — with thousands of addresses and points of interest, including lodging, food and drink, car parks, banks, petrol stations, attractions, campsites and more. Search for an address or point of interest, and your Garmin device displays turn-by-turn directions to your destination.

Available as a download or on microSD™/SD™ card. Click the [Products](#) link to see whether this map is compatible with your Garmin device.
