

nüvi® 465T

Ease your way down the highway with the nüvi 465T – our first nüvi designed specifically for the over-the-road trucking industry. Featuring a preloaded NTTS Breakdown Directory, specialized routing options throughout the lower 48 states and truck friendly points of interest, this full-featured navigator was made for life on the road. The nüvi 465T also lets you create custom vehicle profiles tailored to what you're driving and what you're hauling. It's convenience created with over-the-road drivers in mind.

Navigate With Confidence

The nüvi 465T is the first navigation device to provide locations in the National Truck and Trailer Services (NTTS) Breakdown Directory to its trucking-relevant points of interest. The NTTS Breakdown Directory is the most comprehensive guide to semi-truck repair facilities nationwide – including those offering 24-hour road service.

Get The Big Picture

Featuring a 4.3" high-resolution touchscreen display, the nüvi 465T provides users with a wealth of information in great detail. Preloaded with detailed, street-level maps of the United States, Canada and Puerto Rico, the nüvi 465T speaks street names so drivers will receive turn-by-turn, voice-prompted directions, such as "turn right on Main Street." The nüvi 465T also comes standard with lane assist, which guides users to the right lane at the right time – especially helpful when navigating complex highway interchanges.

Know The Way

With detailed maps providing turn-by-turn directions that call out streets by name, the nüvi 465T provides specialized routing to support truck-related restrictions (customizable by height, weight, length, width and hazardous materials). Simply enter dimensions and load restrictions and nüvi 465T guides you according to your requirements. You can even enter multiple-point routing so that you can take a more efficient route between multiple stops along your trip.

Steer Clear of Hazards

Know what lies in your path with the nüvi 465T. It displays warning information of upcoming road conditions to make drivers aware of possible hazards along the route such as sharp curves and steep grades. You'll also get lateral wind warnings and notification when the road narrows. It's the safe way to travel down the highway.

Avoid Traffic Tie-ups

Put traffic jams behind you with nüvi 465T's integrated FM traffic receiver. Receive free alerts about traffic delays and road construction that lie ahead on your route. Simply touch nüvi's screen to view traffic details or detour around the problem area.

Make Hands-free Calls

For hands-free calling, nüvi 465T integrates Bluetooth® wireless technology with a built-in microphone and speaker. Just pair it with your compatible Bluetooth phone and talk hands-free through the 465T while staying focused on the road. Simply dial numbers with nüvi's touchscreen keypad to make a call. To answer calls, just tap the screen and speak into its built-in microphone. Enjoy convenient one-touch dialing for contacts and points of interest.

Physical & Performance:	
Unit dimensions, WxHxD:	4.8"W x 2.9"H x .8"D (12.2 x 7.4 x 2.0 cm)
Display size, WxH:	3.81"W x 2.25"H (9.7 x 5.7 cm); 4.3" diag (10.9 cm)
Display resolution, WxH:	480 x 272 pixels
Display type:	WQVGA color TFT with white backlight
Weight:	6.1 ounces (172.93 g)
Battery:	rechargeable lithium-ion
Battery life:	up to 4 hours
Waterproof:	no
High-sensitivity receiver:	yes
RoHS version available:	yes
Maps & Memory:	
Basemap:	yes
Preloaded street maps:	yes

Ability to add maps:	yes
Built-in memory:	internal solid state
Accepts data cards:	SD™ card (not included)
Waypoints/favorites/locations:	1000
Routes:	15
Features:	
Voice prompts (e.g. "Turn right in 500 ft."):	yes (internal speaker)
Speaks street names (e.g. "Turn right ON ELM STREET in 500 ft."):	yes
